

eCapital for Hybrid Cloud

Managed Services and Hosting

Leverage your existing on-premise software licenses and let eCapital Managed Services run your software environments for you

As the reliance on fact-based decisioning and real-time analytics converges, many of the world's most dynamic organizations are looking outside the box for flexible and reliable solutions to manage their IT environments. For many, the solution is eCapital for Hybrid Cloud.

Intended for current users advanced analytics solutions, eCapital for Hybrid Cloud is a hosted service offering that enables organization to access their existing on-premise analytics licenses within a hosted support and delivery platform. This service offering can include:

- Your new or existing analytics solutions (bring your own license).
- Your new or existing planning & budgeting solution (bring your own license).
- Secure VPN from the cloud to your internal network.
- Authentication leveraging your on-premise or cloud Active Directory / LDAP.
- Custom configuration for additional software products to meet your solution needs.

eCapital for Hybrid Cloud offers organizations the best of all worlds by allowing them to continue to utilize and control their existing data and applications while gaining the flexibility of a

self-provisioning, on-demand cloud infrastructure.

Key Benefits of eCapital for Hybrid Cloud:

- **Your software as you need it:** Each eCapital Hybrid Cloud implementation is based on the solution designed through collaboration with your business and eCapital.
- **Flexibility of architecture and implementation:** The eCapital hosting option is designed for organizations to get an environment fitted to their specific needs and then scale as your business needs scale.
- **Control of software versions and updates:** We work with your team to plan any upgrades or updates to your environment ensuring the implementation fits your schedule and that we have the dedicated expert resources on hand to ensure updates go smoothly.
- **Secure Hybrid Cloud:** Cloud VPN functionality creates a highly secure connection from the Hybrid Cloud to your on-premise data sources.
- **Time-to-Value:** The combination of SaaS enabled solutions and the experienced eCapital team means you will quickly see the results you need.
- **Low Cost, Low Risk:** Hybrid Cloud offers a path to lower capital equipment costs, as needed software licensing and lower IT infrastructure costs.
- **Cost Accounting:** Shift your cost structure from CAPX to operating expense making it easier to manage budgets.
- **Get the latest innovations, faster:** Get new capabilities in the hands of your users faster.
- **Scalable:** This completely tunable solution gives you the flexibility to add new users without needing to procure new hardware or other infrastructure.
- **It's from eCapital:** As one of the nation's largest full service consultancies dedicated to business analytics and big data, eCapital has unparalleled experience and expertise to help your organization. For over 15 years our

Since 2001, eCapital Advisors has specialized in combining business strategy with today's most advanced toolsets to help you get the greatest insights from your data.

Our services begin with you. At eCapital we flip the normal deployment models. Rather than asking you to fit your business within the confines of the solution, we start by learning your business, and then find a solution that fits you.

SOLUTION FOCUSED

INDUSTRY EXPERIENCE
