eCapital Advisors, Fluence Enter Strategic Partnership

Bloomington, MN, July 26, 2022 – eCapital Advisors – a multi-vendor financial technology firm empowering clients with robust data insights – announced a new partnership with [Fluence Technologies](#), a pure-play provider of financial consolidation, close, and reporting software purpose-built for midsize companies.

“Today's finance leaders are charged with tasks to help their organizations run as smoothly as possible,” said Lisa David, Partner at eCapital Advisors. “By adding Fluence to our proven software portfolio, we will help address a crucial component of fiscal management — financial consolidation, close and reporting.”

“The midmarket’s need for financial consolidation, close and reporting capabilities that the office of finance can own and use independently continues to grow,” David said. “Even with a performance management solution like Workday Adaptive, 84% of companies still turn to Excel for consolidation and 88% of those spreadsheets have errors.”

Fluence Technologies offers a purpose-built solution that is easily owned and maintained by finance. eCapital Advisors brings a rich set of best practices to guide clients, honed over its many years delivering accounting and finance solutions. We see Fluence as the next step for our performance management clients in their finance modernization journey.

About eCapital Advisors

For the past 20 years, eCapital Advisors has helped companies by enabling data-driven decision-making. We help organizations disconnect manual planning and forecasting processes and ditch lack of insights to unlock key business metrics and access to critical data sources. We have successfully implemented more than 600 projects to help our clients use their data to create valuable business insights.

We are eCapital Advisors—problem solvers, transformation leaders, and technology experts with a mission to link talent and analytics for better business decisions.
