

Automate your PPP SBA Reporting

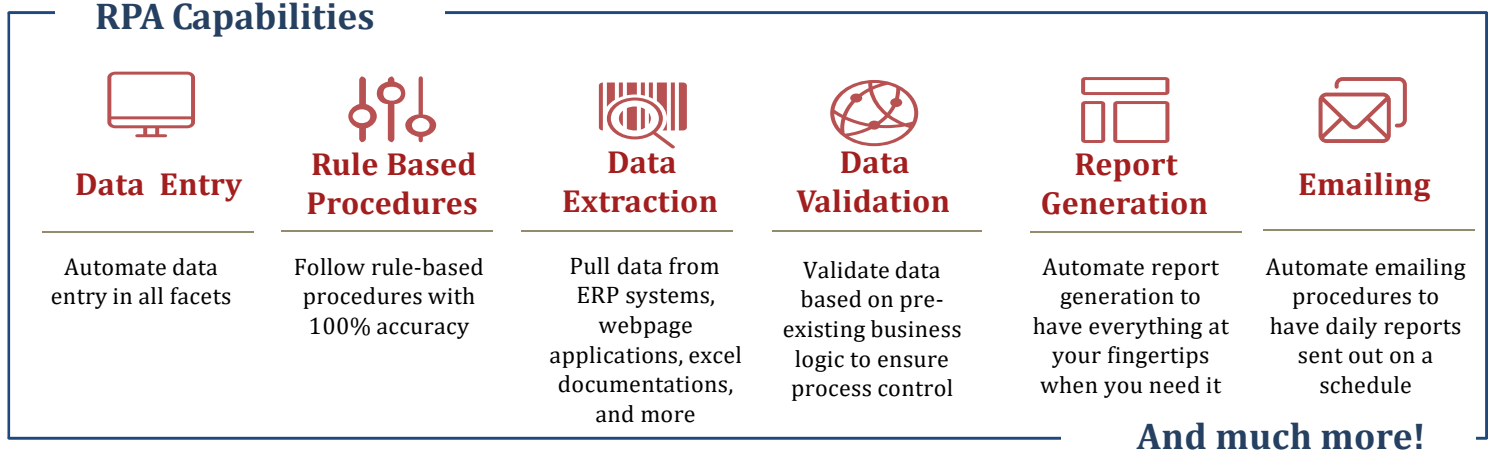

The New PPP Loan Environment

The Paycheck Protection Program (PPP), established as part of the Coronavirus Aid, Relief and Economic Security (CARES) Act provides that the SBA will pay processing fees of up to 5% to lenders based on the volume of the PPP loans disbursed. After submission of form 1502, lenders must submit PPP loan information on a monthly basis to the SBA. On this report, lenders must include loan status information for every PPP loan still outstanding.

What is Robotic Process Automation (RPA)?

RPA is software which integrates into business IT environments and simulates employee actions.

RPA Capabilities

And much more!

Automate PPP Reporting to the SBA

RPA automates monthly SBA reporting - eliminates manual intervention, increases accuracy and ensures compliance

If a process can be mapped, it can be automated!

Key Benefits of RPA

- Helps eliminate tedious back office tasks
- Can execute 100x Faster than any human could- huge performance gains
- Easily scalable and quick to deploy
- Integrates well into any 3rd party or in-house applications
- Avoid key-stroke errors or errors in process
- Built in OCR capabilities to read various document forms
- Built in security features to ensure your data is safe
- Solutions are sustainable and often require no rework once deployed
